Worker's Compensation Training
For Managers

Lost time claims are a major expense for most companies. Pro-TREAD's unique Worker's Compensation Program helps promote a clearer understanding of the entire Worker's Compensation process. Armed with these skills and a clearer understanding of how all the pieces fit together, managers will find themselves more proficient at controlling lost-time costs, more prepared when dealing with difficult employees, and better equipped to manage any situation.

Explained in a practical and entertaining format, these lessons are designed to demystify what most managers see as a confusing and frustrating process.

- Designed to reduce costs and lost time
- Three sequential courses totaling under 2 hours combined

   WC-1 Workers' Compensation 101: Outlines how everything can fit together to minimize costs
   WC-2 Minimizing The Durations of Lost Time: Gain more cooperation from Treating Doctors to minimize lost time
   WC-3 Employee communication: Simple straightforward employee communication skills for managers

- Self-paced and interactive, stop and resume training at any time

Instructional Technologies, Inc. (ITI) is the leading provider of Interactive Multi-Media Training to For-Hire and Private Fleets in the U.S. today. Our Pro-TREAD and Pro-TREAD In-Cab Suites allow you to train your drivers and personnel in an engaging, and above all effective, manner.

Pro-TREAD Suite: Effective Training, Unrivaled Accessibility, Proven Results

Pro-TREAD fully interactive online training offers several key advantages over traditional training.

- Over 70 lessons provide a complete comprehensive training solution
